Gene Mitchell

It is an honor and privilege to award Gene Mitchell with our Hall of Fame Award. Mr. Mitchell once said, "There is great strength in being willing to go broke." Many personal and financial sacrifices are made during large scale projects as we all know, yet despite this risk, Gene persevered and envisioned something bigger than him, bigger than one moment in time. A revolutionary developer in the 1980s, Mr. Mitchell had the vision and

the boldness to create what is now one of the community's landmarks and the recognized cultural heart of our community, Old Town Square.

Today, Old Town Square is considered Fort Collins' Crown Jewel. We take our out of town visitors there; we take business people there for lunches; and our families celebrate special occasions and events among the flowers, the fountain, the sculptures and now, pianos!
