LANGUAGES AND ACCESSIBILITY

Most Natural Areas activities are delivered in English. If you require interpretation in another language, contact naturalareas@fcgov.com or 970-416-2815 to request an interpreter.

La mayoría de las actividades de las Áreas Naturales se realizan en inglés. Si requiere interpretación a otro idioma, comuníquese a naturalareas@fcgov.com o al tel. 970-416-2815 para pedir un intérprete.

**Áreas Naturales
en español**

ES Any activities delivered partially in Spanish will be clearly marked with this symbol. *Cualquier actividad ofrecida parcialmente en español se marcará claramente con el símbolo.*

Auxiliary aids and services are available for persons with disabilities. V/TDD: Dial 711 for Relay Colorado

 If you have any questions or concerns about the accessibility of a program, please contact naturalareas@fcgov.com or call 970-416-2815 for more information. People with disabilities are welcome to participate in all programs and we are happy to make appropriate accommodations. Requests for disability-related services can be made during registration or by calling 970-416-2815 at least 2 weeks prior to the start of the activity.

DOGS

Dogs are not allowed at any scheduled activities. Please enjoy the natural areas with your dog outside of activity times. As a reminder, dogs must be on leash at all times at natural areas. Dogs are not allowed at Bobcat Ridge, Coyote Ridge, Cottonwood Hollow, Fossil Creek Reservoir, Running Deer, and Soapstone Prairie natural areas.

Service animals trained to assist those with a disability are always welcome at natural areas and at Natural Areas programs.

SAFETY

The activities and events offered in this guide often take place in natural areas where you are responsible for your own safety. Outdoor activities include the potential for serious injury, death, or property loss. Choose activities that match your abilities. Be prepared for changing weather conditions. Beware of rattlesnakes, lightning, and high water.

WHAT THE SYMBOLS MEAN

-  Accessible; wheelchairs welcome. Paved or hard-packed trails; distance is 1 mile or less with moderate inclines.
-  This program will be delivered partially in Spanish. *Este programa se ofrecerá parcialmente en español.*
-  Some activities are not suitable for all audiences and have age restrictions.
-  Some activities are specifically designed to be family-friendly and welcome all ages. Children must be accompanied by adults on all activities.
-  This activity is open to all and is specifically noted as a great activity for newcomers to the Fort Collins area.
-  These programs are led by Natural Areas partners and require registration through a partner website.

REGISTERING AND CANCELLATIONS

Registration is required for most activities and opens 30 days before the activity. Go to fcgov.com/register to register or call 970-416-2815 for more information on a particular event.

Activities may be canceled due to inclement weather. Check before you go! Naturalist leaders may cancel an activity in progress for safety reasons.

fcgov.com/register

- fcgov.com/register for descriptions, registrations, cancellations, and program updates.
- fcgov.com/naturalareas for trail closures and general information.
-  Like City of Fort Collins Natural Areas on **Facebook** for news and information.
-  See photos from your favorite natural areas at [@fcnaturalareas](https://www.instagram.com/fcnaturalareas).
-  Follow [@FCNaturalAreas](https://twitter.com/FCNaturalAreas) for updates and information.
-  Visit trails.colorado.gov or check the CoTrex app for trail closures.

ACTIVITY LEADERS

Volunteer Naturalists are highly trained volunteer educators who lead many of the activities in this guide. They love to share their enthusiasm, knowledge, and passion for natural areas. You'll have lots of fun and gain a deeper understanding of your natural areas by attending a Volunteer Naturalist-led activity.

Continued on next page

DISCOVER YOUR NATURAL AREAS!

Natural areas are special places to explore and treasure. The City of Fort Collins Natural Areas Department manages more than 50 natural areas encompassing over 40,000 acres and 100 miles of trails—there's probably a natural area near you! Check the maps on pages 78-81 or visit fcgov.com/naturalareas.

These natural areas are the traditional lands of the Ute, Cheyenne, and Arapaho Native American tribes and remain important to indigenous peoples living in northern Colorado and the surrounding areas.

Fort Collins natural areas are open from 5 a.m. until 11 p.m. except for Bobcat Ridge, Gateway, Reservoir Ridge, and Soapstone Prairie natural areas which are open dawn to dusk. Soapstone Prairie is closed December–February.

STAY INFORMED!

Subscribe to *Natural Areas Enews*, a monthly email newsletter that includes trail recommendations, updates, and volunteer opportunities at fcgov.com/naturalareas.

ART

Throughout this publication, you will notice artistic contributions by community members, such as poetry, stories, and visual art. These contributions reflect the viewpoints and opinions of those individuals and their personal connections with nature. We are proud to feature the work of the community in the Natural Areas Explorer!

Room to Roam

by Erica Reid

A cento poem borrowing text from interpretive signage at Arapaho Bend and Running Deer natural areas. Cento poems borrow words from other authors to comprise the poem.

Why do deer love it here?
It's hard to believe this pond was once a gravel mine.
Did you know?

Where there's water, there's wildlife.
The banks of the Poudre provided a natural lushness and bounty,
allowing cottonwood and willow seedlings to sprout along the shore.

Don't forget the birds!
Waterfowl rest on the open water, shorebirds probe the shallows
for tasty treats, and blackbirds sing from cattail perches.

Look for American white pelicans in the summer and bald eagles in the winter.
Pelicans in Colorado? Yes!
Use binoculars to get a closer look.

You'll know an American avocet by its pencil-thin legs.
You might be surprised at how many different kinds of birds you see and hear.
Don't forget to check the sky!

Bait up for bluegill, sunfish, bass, or yellow perch.
Keep your eyes and ears alert for foxes, beaver, coyotes, and
both mule deer and white-tailed deer.

Look for the signs they leave behind.
Along the trail, look for tracks, burrows, droppings (scat), chewed plants,
scrapes, trails, feathers, bones and more!

The Northern Arapaho People gathered here with other Tribes
to socialize, share special ceremonies, and conduct business.
Please visit with respect.

Thanks for helping keep this area quiet for our animal friends.
Treat this area like you would your own backyard.
Encourage others to do so, too.

Long after you leave here,
watch where you step.
Good luck!

JUNE

SHIFT YOUR RIDE

Natural Areas with Bike Racks:

- **Bobcat Ridge**
- **Cattail Chorus**
- **Coyote Ridge**
- **Gustav Swanson**
- **Maxwell**
- **Nix Farm**
- **North Shields Ponds**
- **Pelican Marsh**
(at Water's Way Park)
- **Red Fox Meadows**
- **Reservoir Ridge**
(at Overland and Michaud lots)
- **Ross**
(at Rolland Moore Park)
- **Running Deer**
(at the Colorado Welcome Center)

Some areas with bike racks do not allow biking on the trails. Please check before you arrive.

For more ways to live sustainably, check out shiftfoco.com

AT HOME

Besides enjoying your natural areas and spending time outdoors, there are lots of ways you can take action to help our environment. Check out these ideas!

Shop Locally

This generates sales taxes that support natural areas conservation and visitor amenities.

Plant Native Plants

Make your yard an extension of the natural areas network by planting native plants. Visit fcgov.com/naturalareas/native-plants.

Minimize Pollutants

Minimize pesticides and herbicides to prevent runoff that pollutes waterways and protect beneficial pollinators.

Keep Cats Indoors

The great outdoors is no place for cats. Keep cats indoors. Learn more at fcgov.com/naturalareas/wildlife.

Adjust Your Lighting

Dark skies benefit people and wildlife. Light only where you need it. Resources available at fcgov.com/nightsky.

Support Air Quality & Climate

Carpool or use alternative transportation such as biking or walking.

Create a Nature Space

Create a nature space with a *Nature in the City* grant which funds projects for residents, neighborhoods, and communities. Grant submissions are open November through mid-January at fcgov.com/natureinthecity.

Reduce & Reuse

Reduce single-use plastics. These can be ingested by wildlife and they pollute waterways. Opt for reusable, recyclable, or compostable packaging whenever possible.

**THANKS FOR SUPPORTING
YOUR LOCAL NATURE SPACES.**

COMMUNITY SCIENCE

Your sightings contribute to hundreds of conservation decisions, peer-reviewed papers, thousands of student projects, and help inform bird research worldwide.

ebird.org

Every observation can contribute to biodiversity science, from the rarest butterfly to the most common backyard weed. This app shares your findings with scientific data repositories like the Global Biodiversity Information Facility to help scientists find and use your data. All you have to do is observe.

inaturalist.org

WESTERN MONARCH
MILKWEED MAPPER

Monarch populations across North America are in serious decline. To preserve and protect populations in western states, we need to better understand where monarchs and their milkweed host plants occur in the landscape. Your help is critical in collecting data to better inform conservation efforts in the western U.S.

monarchmilkweedmapper.org

Still want to do more? fcgov.com/naturalareas/community-science

ON THE TRAIL

YOUR STEWARDSHIP CHECKLIST

There are plenty of ways to give back!

PLAN AHEAD AND PREPARE

- ✓ Use the checklist on page 74. Natural areas can be busy, so check parking lot webcams at fcgov.com/naturalareas/status before you go.
- ✓ Keep trails in good condition by checking trail status before you head out, visiting lesser known natural areas, and visiting at less crowded times. See trails.colorado.gov or CoTrex for closures.
- ✓ Visit in the mornings, evenings, or on weekdays. Check out hidden gems on page 75.

TRAVEL ON DURABLE SURFACES

- ✓ Don't create new trails! If it's muddy, respect trail closures and visit a paved trail instead. Using the same path minimizes ecological impacts.

DISPOSE OF WASTE PROPERLY

- ✓ Use the trash and recycling containers at trailheads.
- ✓ If trash can is full, pack out your own trash.
- ✓ Restrooms are at trailheads and some interior locations.
- ✓ Scoop your pet's poop to prevent water pollution.
- ✓ Pick up litter by becoming a Natural Areas Adopter at fcgov.com/naturalareas.

LEAVE WHAT YOU FIND

- ✓ Allow the narrative of each place to be sustained. Don't collect any items. Leave everything as you found it.

NO FIRES ARE ALLOWED ON NATURAL AREAS

- ✓ Attend a campfire activity in this guide! (See page 41.)

RESPECT WILDLIFE

- ✓ Allow wildlife to thrive in their home and habitat by giving them space and not feeding them.

BE CONSIDERATE OF OTHER VISITORS

- ✓ Be aware of other visitors and follow trail etiquette: Bikers yield to horses and pedestrians. Pedestrians yield to horses.

AT NATURAL AREAS

Natural areas are yours to enjoy and explore, and as stewards it is our responsibility to care for these special places. With more than 40,000 acres and more than 50 natural areas, there is a lot to care for!

PICK IT UP FOCO

Want to take your impact to the next level? Lead your own trash clean-up.

- Clean up our city before trash makes its way to the Cache la Poudre River.
- Help us better understand issues around trash and single-use plastics in our City.
- Collect data that will help drive policy changes.

The City of Fort Collins is partnering with Litterati to engage the community in picking up litter in Fort Collins—download the app to help!

Visit fcgov.com/volunteer/trashpickup for more information.

Visit litterati.org for more information.

Help protect our waterways for future generations by checking for and repairing any vehicle leaks. When it rains and as snow melts, runoff carries oil, antifreeze, gas, transmission fluid, and other pollutants down storm drains, contaminating our rivers, streams, and lakes. Your car's small leaks and drips add up. Learn more at fcgov.com/ddd.

What's the Buzzzzzzz on Native Bees?

How do I know it's a bee?

Bees have:

Did you know:

- Colorado has over 900 bee species.
- Around 1/3 of bee species only collect pollen from specific native plants.
- Colorado has 1/2 of the species of bumblebees found in North America.

Hairy Belly Bee

Green Metallic Bee

Bumble Bee

Tiny Dark Bee

Cuckoo Bee

Check Out Native Bee Watch To Learn More

Pedal Hard, Climb Again

by Lauren Mehl

Growth.
Is that what this is?
The potent forest air breathes—
Epiphany!
Pedaling hard, climbing again,
I feel challenged
Constantly.

Growth.
Push me over.
I have bruises and scrapes
On my knees
And on my heart.

Growth.
Stretching my muscles
and my fortitude.
Bursting through the tangled fascia,
Sending the twisted trail.

I'm getting stronger, and I'm already strong.
I'm becoming bolder, and I'm already bold.
I'm so grateful, and
I'm already great.

Growth.
I thought I knew you.
We have a lifetime together.

DO-IT-YOURSELF RESOURCES

fcgov.com/naturalareas/learn

Registration is required for most programs and opens 30 days prior to the activity date at fcgov.com/register or 970-416-2815.

City of Fort Collins

YOUNG NATURALISTS

Activities specifically for young people. **Parents/guardians must be present at all times during the program.**

FOR TODDLERS

DATE	TIME	NATURAL AREA	DESCRIPTION
Fri. June 17	10:00 a.m. – 11:00 a.m.	Ross Meet at Rolland Moore Park Playground.	Toddler Tracks Storytime R Discover flowers, bugs, tracks, and more in this slow-paced exploratory walk with the Poudre River Library District. Bring your library card along to check out books from the Book Bike! 1-3 yrs. Register at read.poudrelibraries.org/events .
Fri. July 15	10:00 a.m. – 11:00 a.m.	Red Fox Meadows Meet at the trailhead kiosk on Longworth Dr.	
Fri. Aug. 5	10:00 a.m. – 11:00 a.m.	Maggie Meander Meet at Soft Gold Park.	

FOR TEENS

DATE	TIME	NATURAL AREA	DESCRIPTION
Fri. June 10 Fri. June 24 Fri. July 8 Fri. July 22	10:00 a.m. – noon	Riverbend Ponds Meeting location available upon registration.	The Arts and the Great Outdoors for Tweens and Teens R Let your creativity flow with a mini-workshop on topics ranging from photography to ukulele playing to sketching to tai chi! After the mini-workshop, explore Riverbend Ponds with a naturalist. For teens and tweens ages 10-18. Register at read.poudrelibraries.org/events .

Check for cancellations at fcgov.com/naturalareas before you go!

JUNIOR NATURALISTS

AGES 8-12

Explore, learn, and grow your stewardship skills. **Parents/guardians must be present at all times.** Siblings are welcome, but the activities are geared towards the stated age group.

DATE	TIME	NATURAL AREA	DESCRIPTION
Thurs. June 16	10:00 a.m. – noon	North Shields Ponds Meet at the parking lot for Shields Street River access.	Birds! What exactly do birds do all day (or, for some species, all night)?! Practice identifying our local feathered friends and discover the fascinating lessons they can teach us! Up to 1 mile; easy.
Thurs. June 30	8:30 p.m. – 10:00 p.m.	Riverbend Ponds Meet at the parking lot off of Prospect Rd.	Light up the Night Did you know we have fireflies in Fort Collins? Find out why it's such a great place for fireflies to live and fun facts about these amazing beetles. Up to 1 mile; easy.
Thurs. July 7	10:00 a.m. – noon	Riverbend Ponds Meet at the Cairnes Dr. entrance, off of Timberline Rd.	Hiding in Plain Sight Have you ever been frustrated by not seeing wildlife on a hike? Use the SLOW method to increase your chances of seeing nature's creatures on your next hike. Chances are, they are hiding right under your nose! Up to 1 mile; easy.
Thurs. July 21	10:00 a.m. – noon	Gateway Meet at the picnic shelters.	WaterWise Explore the journey of a drop of water from its source to your tap at home. This program will include a short hike and an exploration of how the City assesses the health of our watershed to provide drinking water for thousands.
Thurs. Aug. 4	10:00 a.m. – noon	Red Fox Meadows Meet at the trailhead kiosk off of Longworth Dr.	Life of a Ranger What's it like to be a Natural Areas ranger? Come learn from real rangers and see how they help keep our natural areas safe and healthy. Up to 1 mile; easy.

Registration is required for most programs and opens 30 days prior to the activity date at fcgov.com/register or 970-416-2815. Check for cancellations at fcgov.com/naturalareas before you go!

STICKER PAGE

Attend every Junior Naturalist program and collect a sticker from the program leader. Attend each program to collect them all! As a bonus, complete one activity from Generation Wild's *20 Ideas for 20 Minutes Outside* and draw a picture of it.

20 IDEAS FOR 20 MINUTES OUTSIDE AT HOME

1. HOST A MUD PARTY

Get the mud and fun flowing. Try mud painting. Make mud pies. Squish mud between your toes. All it takes is a big bucket, dirt, water, and a little imagination.

3. CAMP IN YOUR BACKYARD

Just pitch a tent or sleep under the stars in your yard. Make some s'mores and enjoy an adventure close to home—and indoor toilets!

2. ADD WATER & CHILL

Fish for marbles. Fill a baby pool with ice and water. Then add marbles and try to fish them out with your toes. Or do a frozen T-shirt challenge. Freeze tees and water in plastic bags. See which friend can break the ice to wear one first.

4. GO ON A COLOR SCAVENGER HUNT

Search for things outdoors that match each of the six colors here. Could be flowers, bugs, the sky—whatever catches your eye. Bonus points if you capture a photo or drawing of what you find.

5. MAKE SUN PRINTS

Place colored construction paper outside in the sun. Make a design on top of it with leaves, sticks, rocks and other stuff. Then let it sit out, and in a few hours, the sun will turn it into a wild piece of art. Don't forget to sign your masterpiece!

6. MAKE NATURE FOSSILS

Form clay into circular shapes about a half-inch thick. Find interesting rocks, leaves, sticks and plants that you can press into each piece of clay and remove. Boom! Instant "fossils"!

7. SET UP A TOY CAR WASH

Here's something cool to do on a hot day. Grab your toy trucks and cars and hold your own mini soapless carwash. And if a water fight happens to break out, it'll be even cooler.

8. PLAY TAG

At dusk, grab some friends and a flashlight, and it's game on! Whoever gets tagged with the light beam is it.

9. TURN LUNCH INTO A REAL PICNIC

Any meal is more fun outdoors. So, grab a blanket, a basket of your favorite snacks, and find a shady patch of grass. To make it extra sweet, cut fruit into flower shapes and munch away.

10. CREATE A BIKE OBSTACLE COURSE

Grab some chalk and draw a curvy track on your sidewalk or driveway. Add a stopwatch and crown a track champion for the fastest lap.

11. MAKE A SUNDIAL

Grab a stick and 12 rocks. Paint numbers 1-12 on each rock. At noon, plant the stick straight up in a sunny spot. Place rock #12 at the end of the stick's shadow. At 1:00 p.m., do the same with rock #1 and repeat every hour until sunset. Return the next morning to mark shadows on the hour from sunrise to noon.

12. GROW VEGGIES FROM SCRAPS

Place the end of some celery or romaine lettuce in a bowl with a little water. Set it in a sunny spot and watch for roots to appear. Then plant it outdoors or in a pot and watch it grow. No seeds necessary!

13. GO ON A SAFARI

Have someone hide toy animals outside and let the search begin. If they're hidden too well, hints like "cold!" "warm!" and "hot!" will help guide you.

14. MAKE LEAF ZOMBIES

Collect rocks and interestingly shaped leaves and make zombie, ghost, and monster faces out of them.

15. PAINT WITH WATER ON YOUR SIDEWALK

Grab a paintbrush and a container of water and get your Van Gogh on. Watch what happens to your painting as the sun heats it up.

16. "COLLECT" SOME BUGS

Grab a camera and explore your yard or local park. See how many bugs you can add to your photo collection. If you're nice, they might even smile for the camera.

17. MAKE A ROLY POLY HABITAT

Get a container that allows for airflow, and fill it with dirt, dead leaves, rotting wood, and moss. Then add some roly-polies. After having some fun watching them, set them free.

18. FEED YOUR BIRD CURIOSITY

Hang up a bird feeder and then sit back and watch the airshow. Keep a list of how many birds visit, make drawings of them and keep it all in a journal.

19. TAKE A MICRO HIKE

Rope off a 3' x 3' area in the grass with string. Then crouch down and use your fingers to move the grass and dig in the dirt. Use a magnifying glass to see what lives there. It's a new, close-up way to see the world.

20. MAKE TREE RUBBINGS

Nature is one amazing artist—and you can be too. Just hold a sheet of paper against a tree trunk and rub over it with crayons or pencils. Try it against different trees to complete your art collection.

Registration is required for most programs and opens 30 days prior to the activity date at fcgov.com/register or 970-416-2815.

GO FOR YOUR OWN NIGHT HIKE!

Have you ever explored nature at night? Take a night walk in a natural space and listen for owls, frogs, and other wildlife. Learn what flowers bloom at night. Here are some tips to keep you safe and learning:

- **Social or Solo?** Hiking at night alone vs. hiking with a group provide very different experiences. Whether you choose to hike alone for solitude or with a group for a social experience, make sure everyone knows the safety tips below.
- **Head out just before sunset:** Heading out before sunset can make it easier to get motivated, plus there's still a little light on the way out, which will make the way back easier.
- **Hike on a full moon:** On full moon nights, there is more natural light. You can use your headlamp or flashlight less!
- **Take a familiar trail:** Taking a trail you already know will make nighttime travel easier.
- **Pick the right location:** Some natural areas are closed after dark. Coyote Ridge, Reservoir Ridge, and Riverbend Ponds are all great places to try a night hike and they're open until 11 p.m.! Check out fcgov.com/naturalareas for more natural areas that are open late.
- **Slow down and be observant:** Darkness can make terrain more challenging and it's easy to get turned around and miss a trail junction. Slow down and pay attention to your surroundings, including signs of wildlife.
- **Bring layers:** If you start before the sun sets, you may want an extra layer of clothing once the night sets in and it cools off.
- **Bring a cellphone or radio for emergencies:** Be aware of the area you are hiking and know if you can get cell service there.
- **Tell someone where you are going:** Always let someone know where you are going and when you expect to be back.

ASTRONOMY AT BOBCAT RIDGE

Enjoy a brief, family-friendly astronomy activity followed by skygazing. Volunteers from the Northern Colorado Astronomical Society provide telescopes. Dress warmly, bring water, and a blanket or chair to sit on in the parking lot. If bringing a flashlight, use a red light or cover it with red cellophane. Activities at Bobcat Ridge will begin at the picnic shelter, a 0.25 mile-walk. **Please arrive on time! Allow for a 10-minute walk to the shelter. The gate closes shortly after start times and parking is not allowed on the road outside the gate.**

DATE	TIME	DESCRIPTION
Fri. June 3	8:30 p.m. – 10:30 p.m.	The Long and Short of It As we approach the summer solstice, learn what really causes our days to lengthen and shorten and how our skies change with the seasons.
Sat. July 30	8:15 p.m. – 10:15 p.m.	The Perseid Meteor Shower Probably the most well-known and easy to see meteor showers, the Perseids are one of the best opportunities to catch a glimpse of impressive “shooting stars.”
Sat. Aug. 20	8:00 p.m. – 10:00 p.m.	Globular Clusters & the Galactic Core First observed in 1665, globular clusters are thousands of stars grouped together in tight clusters which appear around the center of our galaxy. They are spectacular in the telescope!
Fri. Sept. 23	7:00 p.m. – 9:00p.m.	The Autumnal Equinox For the next six months, the nights are longer than the days. Familiarize yourself with the constellations of the fall evening sky and enjoy the telescope views of planets and deep-sky objects.
Sat. Oct. 15	6:15 p.m. – 8:15 p.m.	The Gas Giants: Jupiter and Saturn Saturn and Jupiter march across the evening sky in October and into the winter. They will slowly separate over the next decade.

A Fireproof Resilience

by Eryn Lylum

"Raise your hand if you have been here before."

Eight moms and our combined dozen-and-a-half children stand before me with hands at their sides. It strikes me that no one from our school group has set foot at Bobcat Ridge. The exception is my children and me. The last time I brought my kids here was over a year ago. We spent a morning sitting beneath the wooden shelter, reading books, and painting with watercolors. Their creations reflected the surrounding green ponderosa pine, golden rabbitbrush, and pearl white yucca blossoms. A rock wren sang to us from the red sandstone cliffs hemming the valley.

Eleven days later, the entire area was on fire. Red and orange plumes engulfed the green, gold, and white hues relegated to canvas, preserved in time and memory.

Today, over a year later to celebrate its reopening, we've brought our school group for a nature hike and lesson on wildfire and restoration. I watch children brimming with energy run ahead, stopping abruptly to observe mule deer making their silent passage across the valley. I share how the Arapaho and Ute Indians used this valley as wintering grounds, seeking shelter between the hills from harsh conditions. Into this soil is sown a resilience no fire can touch.

Watching our group fall in love with this area as I have, I realize one doesn't have to know something, someplace, or someone as its prior self to appreciate its beauty. Sometimes seeing the scar is enough. We hike past ponderosa pine bearing blackened trunks. Fragile, newly planted grasses and wildflowers cautiously poke through charred soil. My children and I are familiar with Bobcat Ridge's beauty before the Cameron Peak Fire. The rest of our group knows it only after the fact; yet all of us are touched by the restoration we're witnessing. We feel connected to the Native Americans and pioneers who called this land home. As they gleaned from the land the resilience needed for their struggles, we can also.

Further, we feel a kinship with the staff and volunteers who worked tirelessly over the past year to reopen Bobcat Ridge. We know it is their efforts that have welcomed us to these trails. In the gracious stride of mule deer, the wingbeats of a magpie soaring overhead, and yucca stalks stretching toward the sun, we sense the miracle taking place around our feet. Following the path of the Arapahos and Utes, pioneers, wild turkey, elk, mule deer, and finally the volunteers who fought for all its history, we discover similar resilience and restoration. Bobcat Ridge stands as a stunning reflection of our unique journeys and a return to well-being.

STEWARDSHIP BEHIND THE SCENERY 16+

These informative talks are designed for adults to learn more about research in natural areas and how their unique and valuable natural resources are stewarded. Parking is limited—please carpool, bike, or walk.

DATE	TIME	LOCATION	DESCRIPTION
Thurs. June 9	6:00 p.m. – 7:00 p.m.	Sugar Beet Park Pollinator Garden Pre-register for more details.	Out and About: Pollinators   Pollinators are important to the health of our plants. Come learn how to create and maintain a pollinator garden with Nature in the City staff.
Wed. June 15 Sat. June 18	7:00 a.m. – 9:00 a.m.	Soapstone Prairie Meet at the south parking lot, approximately a one hour drive from Fort Collins.	Searching for Baird's Sparrow Soapstone Prairie is the only known breeding site for the rare Baird's Sparrow in the state of Colorado. Join biologists from the Bird Conservancy of the Rockies and Fort Collins Natural Areas to look for the elusive birds and learn why conserving grasslands is important to their survival.
Thurs. July 14	6:00 p.m. – 7:30 p.m.	McMurry Park at the Shields St. River Access. Group will walk to McMurry together.	Out and About: Restoration—Is it for the Birds?   Discover how biologists, botanists, and restoration staff work together to create healthier plant and animal communities. Register at read.poudrelibraries.org/events/
Fri. July 15	8:30 p.m. – 10:00 p.m.	Gateway Meet at Shelter A.	Bats! Did you know that Gateway is home to one of the largest maternal roosts in Northern Colorado? Learn where they live and why local scientists have been watching their habits closely.

Winter Dance and Summer Splendor by Mary Harnett

The Big Box of Crayons

by George Wallace

While we tossed and turned,
the wide Wyoming wind blew steady all night,
scrubbing, flushing, polishing, pushing South all the
bad air, fugitive chemistry and grime that had drifted North
from the centers of progress, in the days before.

It howled, it sang, till it had blown the top off
the big box of crayons—the best box—with all the colors:
Burnt Umber, Raw Sienna, Granny Smith, and Forest Greens,
now illuminated by the clean light of a fresh Fall day that suffuses
all the grasses, forbs, shrubs, trees, and waters with: Sepia, Beaver,
Tumbleweed, Asparagus, Sea Green, Blue Green Cerulean, and Indigo.

Just as an excited child sees, smells, almost tastes
the potential beauty, the opportunity, of a fresh white pad and a new box
of crayons on the first day of school under a Celestial Blue sky,
we rise wanting only to wade out into nearby nature's Venetian Red, Burnt Orange,
Pine Green, Lavender, and Plum—into all the sharp and subtle shades of heaven.

Without the wind to sharpen our world, in time
the tips will begin to flatten and the many shades and scatters will return
to their small box approximations: red, blue, green, brown, gold.
Still, good teachers will ask us to remember and re-create the colors, the beauty,
the ideas for living fully—that this morning are so apparent.

CREATIVE BY NATURE

Beginners and veterans welcome! Instruction, focused and guided observations, along with drawing, painting, and writing deepen your connections to nature. No art experience required. Children 9 and older are welcome if accompanied by an adult. Bring something to sit on (a stool, jacket, pad, etc.). Feel free to bring your own art supplies or borrow ours.

DATE	TIME	NATURAL AREA	DESCRIPTION
Sun. June 26	9:00 a.m. – 12:00 p.m.	Primrose Studio  Meet at the studio at 4300 Michaud Lane near Reservoir Ridge.	Bugs and Blooms Captured in a Naturalist's Notebook  Learn how to use art as a tool for discovering and capturing the details of plants, insects, and other creatures. Up to 1 mile; easy.
Wed. June 29	9:00 a.m. – 11:00 a.m.	Primrose Studio  Meet at the studio at 4300 Michaud Lane near Reservoir Ridge. Journaling the Nature Experience  Whether capturing the distant mountain landscape or the close flora and fauna, nature journaling is a way to enjoy and develop appreciation of nature. 0.5 mile; easy.
Wed. July 13	6:00 p.m. – 8:00 p.m.	Bobcat Ridge  Meet at the parking lot.	Evening Nature Journaling  Learn to use nature journaling techniques to capture the magic of a summer evening in a natural area. 0.5 mile; easy.

Hipster Trout by Kate Mosely

STUDENTS WITH THE COMMUNITY CONNECTIONS TRANSITION PROGRAM OF POUDRE SCHOOL DISTRICT

Artistic Abilities is an inclusive art class that collaborates with CSU Art Education, Poudre School District, and Adaptive Recreation Opportunities (ARO). Class members gathered natural materials, especially colorful leaves, which they arranged into rainbows with glue, cardboard, and paint. Nature can always provide artistic inspiration, complementing the multiple benefits of moving outdoors and expressing creativity. Artistic Abilities works with ARO to provide quality programs and equal opportunities in recreation and leisure to community members with and without disabilities.

Registration is required for most programs and opens 30 days prior to the activity date at fcgov.com/register or 970-416-2815.

PLANT-BASED NATURAL AREA OUTDOOR DINING

Marty Cowan, author of *Table To Trail*

MENU

- Watercress & Hummus sandwiches
- Fresh fruit
- Sparkling water
- Cookie brittle

It only takes a bit of planning ahead for a big reward of picnic-style dining at one of Fort Collins beautiful natural areas. Gather friends and family and choose a day! The watercress and hummus sandwiches are portable and stay fresh and delicious until ready to enjoy. Beautiful to look at and fun to eat. A side of fresh fruit and sparking water to drink elevates the occasion. Crunchy-sweet cookie brittle for dessert is a trail favorite—fun to munch on while enjoying the conversation and company in a delightful natural area setting. A homemade meal made from plants, created by your own hands means less processed foods, less packaging and waste. Better for your body and the planet! When you are finished with your picnic, remember to leave no trace behind.

Show us your Fort Collins Natural Area trailside cuisine: [#fcnaturalareas](#)

MENU COMPONENTS

- 1 loaf of multigrain bread or buns
- Homemade hummus (recipe below)
- Watercress, rinsed and trimmed (or other lettuce variety)
- Fresh basil leaves
- Sparkling water
- Fresh strawberries
- Cookie brittle (recipe below)

HOMEMADE HUMMUS

EQUIPMENT	DIRECTIONS
<ul style="list-style-type: none"> • Food processor • Can opener 	Place all ingredients in a food processor with the “S” blade. Blend until the consistency is completely smooth. Smooth a generous layer of the hummus on one side of the bread. Top with watercress and fresh basil leaf or two. Place in an airtight container and refrigerate until ready to use. Store leftover hummus in the fridge for up to 3 days. It's perfect for dipping crackers, tortilla chips, and vegetables.
INGREDIENTS	
<ul style="list-style-type: none"> • 2 cans of chickpeas, rinsed and drained (or one can of chickpeas, one can of white beans) • 1/4 C. olive oil • 1/4 C. canola oil • 2 cloves garlic, minced • 1 TBS. tahini • 1 lemon, juiced • 1 tsp. salt • 1 tsp. ground cumin 	

COOKIE BRITTLE

EQUIPMENT	DIRECTIONS
<ul style="list-style-type: none"> • 2 Large mixing bowls (one needs to be microwave safe) • Whisk • Food processor • Baking sheet (12" x 17") • Large spatula • Cutting board • Chef's knife 	Preheat oven to 350°. In the microwave-safe mixing bowl, add the butter and sugar. Melt in the microwave for 30 seconds and whisk. Repeat two times or until butter is melted. Whisk and let sit for 5 minutes. Add the vanilla and whisk until completely blended. In the other mixing bowl, add the all-purpose and oat flours, salt, baking powder, cinnamon and stir until blended. Add the butter/sugar/vanilla mixture to the flour mixture and stir until blended. Fold in half the pecans. Press the dough evenly in the baking sheet (it seems like there won't be enough but keep at it). Top with the chocolate chips and remaining pecans. Press them into the dough lightly. Bake for 24 minutes, rotating the pan every 7-8 minutes. Remove from oven and cool completely. Break into uneven pieces. Store in an airtight container.
INGREDIENTS	
<ul style="list-style-type: none"> • 3/4 C. plus 2 TBS. nondairy butter • 1 C. sugar • 2 tsp. vanilla • 1 1/2 C. all-purpose flour • 1 C. oats blended or 1C. oat flour • 1 tsp. salt • 1 tsp. baking powder • 1 tsp. cinnamon • 3/4 C. pecans, chopped and divided • 3/4 C. dark chocolate chips 	

WELLNESS

Time spent in nature has been linked to reduced stress, improved sense of well-being, and increased social connectedness. Join trained Volunteer Naturalists to explore how time spent in green spaces can positively affect both your mental and physical health. Organized groups should schedule activities at a separate time; contact naturalareas@fcgov.com.

Gateway in Winter by Kate Mosely

The Push

by Roxanne Griffin

The push of earth carries me deep
into the fabric of the forest over shadows
long cast by old growth sentinels.

Sunlight falls quietly across the understory
blooming anew into a myriad of shapes
beyond the bounds of mortal imaginings.

A gentle breeze sends wings fluttering
above sparkling green meadows.
Air fills with the passing fragrance
of the ponderosa pine's essence.

Choruses of life-giving rivulets carry the melt
from above across fallen branches and boulders
at tempos ranging from largo to allegro.

I do not need to stop to listen.
No longer am I a stranger.
My spirit quiet as the woods.

NATURAL DISCOVERIES

Enjoy a variety of activities and hikes. Organized groups should schedule activities at a separate time; contact naturalareas@fcgov.com.

DATE	TIME	NATURAL AREA	DESCRIPTION
Tues. May 24	10:00 a.m. – noon	North Shields Ponds Park at Shields Street River Access and walk north along the road to the natural area.	Sights and Sounds of North Shields Ponds   Discover a special Poudre River natural area right in town. North Shields Ponds includes riverbanks and two large ponds with easy trails for exploration. Its wetland and forest habitats support a wide variety of animal life. 1-2 miles; easy.
Wed. May 25	3:00 p.m. – 4:30 p.m.	Pineridge Meet at the parking lot above Dixon Reservoir, off of County Road 42C/ Dixon Canyon Road.	Starting Anew: Signs of Spring on the High Plains   10+ Explore springtime transformations and discuss how scientists, through the study of phenology, are gaining insights into seasonal biological events and a warming climate.
Thurs. June 2	6:30 p.m. – 8:30 p.m.	Coyote Ridge  Meet at the parking lot for a hike to the cabin.	Raptors and Nature: Explore and Share  Learn about the amazing raptors that populate Colorado's Front Range and how we can help conserve them. Observe live raptors up close with a visit from special guest, the Rocky Mountain Raptor Program. Then enjoy a short hike with a naturalist to further explore the local environment. See the registration website for more information. 1-2 miles; easy.
Thurs. July 21	6:30 p.m. – 8:30 p.m.	Fossil Creek Reservoir  Meet at the outdoor classroom near the parking lot.	
Sat. Sept. 3	9:00 a.m. – 11:00 a.m.	Soapstone Prairie  Meet at the north parking lot.	
Fri. Jun 3	8:00 a.m. – 10:00 a.m.	Pineridge Meet at Cottonwood Glen Park in the parking lot.	Parade of Prairie Bloom  18+ Explore the blooms through the months, while learning about native and non-native plants. 1.4 miles; easy-moderate.

PLAY IT SAFE ON THE RIVER

THIS INFORMATION COULD SAVE YOUR LIFE!

WEAR A LIFE VEST

- ✓ No pool toys—they won't hold you up.
- ✓ Wear shoes and a helmet.
- ✓ Don't tie anything to yourself or your vessel. It could drown you.

KNOW WHERE YOU ARE

- ✓ Take a map!
- ✓ Plan your take-out location before you get in.
- ✓ Pay attention and follow all warning signs.

BE COURTEOUS

- ✓ Don't leave trash in or near the river. Look for trash and recycling cans in parking lots.

SHARE THE RIVER

- ✓ Give other boaters and anglers plenty of space.

SAFE TO GO?

- ✓ Know the weather and water conditions. High flows are unsafe.
- ✓ This water is melted snow—it's always cold.
- ✓ Avoid logs, branches, rocks, and debris. They can drag you under.
- ✓ Your risk-taking endangers the lives of rescuers.

FLOAT SOBER, FLOAT SAFE

- ✓ Alcohol and drugs, including marijuana, impair judgment.

IF YOU'RE IN THE WATER

- ✓ Don't stand up in the river; avoid foot entrapment.
- ✓ Get on your back with feet pointing downstream. Get your toes out of the water.
- ✓ Use your arms to paddle to shore.

HAVE A SAFE TRIP!

IN CASE OF EMERGENCY, CALL 911.

SPECIAL EVENTS

Come see the Natural Areas staff and volunteers at these local special events!

WILD FEST!

Fort Collins Senior Center

July 9, 2022, Noon – 3:00 p.m.

Bring the family and learn about native wildlife species, how we can safely interact with them, and how you can contribute to local wildlife conservation efforts.

POUDRE RIVERFEST

New Belgium Brewery

August 20, 2022

Join us at New Belgium Brewery for a day of education, restoration and celebration of the Poudre River! There will be live music, exhibitor booths, interactive games, food trucks, tasty beer, and door prizes! You can also learn about river restoration projects being led by the local non-profits and sign up to volunteer.

<https://poudreriverfest.org>

BLACK-FOOTED FERRET REDISCOVERY DAY

Fort Collins Museum of Discovery

September 24, 2022, 10:00 a.m. – 2:00 p.m.

Come hear the best story in North American wildlife conservation!

BLACK-FOOTED FERRET CLONE DAY

Fort Collins Museum of Discovery

December 10, 2022, 10:00 a.m. – 2:00 p.m.

Celebrate the birthday of the first cloned ferret, Elizabeth Ann. Learn how Fort Collins played an important role in this landmark scientific achievement.

Registration is required for most programs and opens 30 days prior to the activity date at fcgov.com/register or 970-416-2815. Check for cancellations at fcgov.com/naturalareas before you go!

WHAT TO BRING

Having the right things with you will help make your natural area visit a success. Use this checklist as a guideline to help you pack for a day outdoors.

- ☐ **Map and Compass, a GPS System, or Your Phone:** (not all natural areas have good reception, see the box below for more info). A natural areas map is at fcgov.com/naturalareas and at trailhead kiosks.
- ☐ **Layered Clothes and Rain Gear:** Be prepared for sudden changes in weather.
- ☐ **Repair Kit:** This may include duct tape, multi-tool, etc.
- ☐ **Water:** Pack more than you think you'll need and drink before you feel thirsty.
- ☐ **Trail Food**
- ☐ **First Aid Kit:** Include a space blanket if you have one.
- ☐ **Flashlight**
- ☐ **Sun and Bug Protection**

Visitor safety is important to the Natural Areas Department. Bobcat Ridge, Soapstone Prairie, and Gateway natural areas have little to no cell phone coverage. Call boxes are available in case of an emergency. See locations and details below:

- **Bobcat Ridge Natural Area** usually has cell phone coverage in the higher elevations. (Call box in parking lot.)
- **Soapstone Prairie Natural Area** has more cell phone coverage towards the north parking lot. (Call box at gatehouse near entrance.)
- **Gateway Natural Area** never has coverage. (Call box before gatehouse upon entry.)

Registration is required for most programs and opens 30 days prior to the activity date at fcgov.com/register or 970-416-2815.

FIND YOUR NATURAL AREAS
