

Water Efficiency: Web Enabled Controllers

- Please be sure to sign in at back of room
- Restrooms located in the lobby west of the floating wall
- Emergency exits located at the northwest exit and west entrance

Alternative and High Efficiency Cooling Technologies

April 18, 8:30-10 a.m.

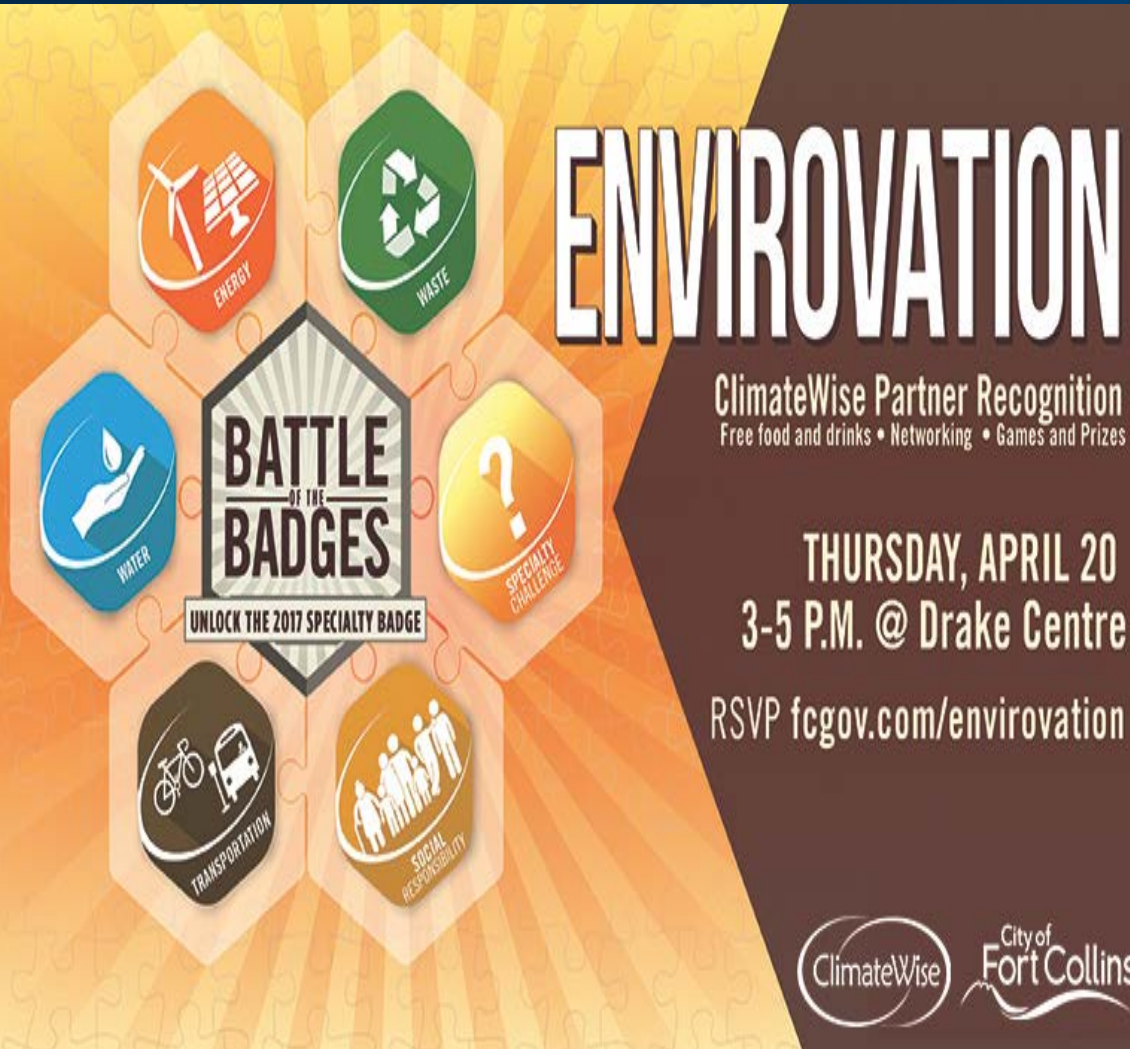

Discover high efficiency and alternative cooling options for commercial spaces. Topics include evaporative space cooling (including precooling), as well as an introduction to technologies more applicable to larger customers (including chillers and cooling towers).

Lessons from the Field: Multi-Family Building Air Tightness

May 16, 8:30-10 a.m.

The City's air tightness requirement for multi-family buildings requires monitoring air barrier details during design, and verifying those details through construction. Learn about testing options and what steps to take during design and construction to achieve successful results in stacked multi-family, townhomes and rowhomes.

You're Invited! Join ClimateWise

The graphic features a central puzzle piece arrangement. A central grey puzzle piece is labeled "BATTLE OF THE BADGES" with "UNLOCK THE 2017 SPECIALTY BADGE" below it. Surrounding it are six other puzzle pieces: "ENERGY" (wind turbine and solar panels), "WASTE" (recycling symbol), "WATER" (hand holding a water drop), "SPECIALTY CHALLENGE" (question mark), "TRANSPORTATION" (bicycle and bus), and "SOCIAL RESPONSIBILITY" (group of people). The background is a warm orange and yellow gradient with faint puzzle piece patterns.

ENVIROVATION

ClimateWise Partner Recognition
Free food and drinks • Networking • Games and Prizes

THURSDAY, APRIL 20
3-5 P.M. @ Drake Centre

RSVP fcgov.com/envirovation

ClimateWise offers:

- Connection to resources
 - Business advisory service
 - Facility assessments
 - myClimateWise
- Education and Networking
- Recognition
 - Free advertising!
