

Add Offero to your home screen

iPad/iPhone

You can add it to your home screen with the following steps:

- Open Mobile Safari and browse to Offero.
- For iPad
 - o Tap on the 'Share' icon just to the left of the address bar – the one that looks like an envelope with an arrow coming out of it.
- For iPhone
 - o Tap on the 'Share' at the bottom of the window – the one that looks like an envelope with an arrow coming out of it.
- Tap on 'Add to Home Screen' on the popup you get after tapping the Share button.
- This will give you another popup, where you can accept the name for the new home screen button or edit it to whatever name you'd like for the site shortcut. Once you have the name as you like it, tap on the Add button.

That's it. You will then have a new home screen icon that will launch that site for you each time you tap it.

Android

- Launch Chrome for Android and browse to Offero.
- Tap the 'Menu' button in the upper right-hand corner
- Tap on 'Add to Home Screen'
- You'll be able to enter a name for the shortcut and then Chrome will add it to your home screen.
